

# About Us

**PRIEST**  
ENVIRONMENTAL

Your partner in creating a sustainable legacy

Our mission is to restore the balance of natural ecosystems through innovative solutions. Priest Environmental is dedicated to empowering communities to coexist harmoniously with the environment. Guided by science, sustainability, and a deep respect for nature, we strive to leave a thriving and resilient planet for future generations.

With 25 years of experience managing trees through our parent company, Nate's Tree Service, and drawing on the landscaping expertise of our landscaping sister company, Yucca Pointe, Priest Environmental is poised to be your one-stop-shop for planning through implementation. We have the experience, knowledge, and equipment to make it happen.

# Sustainable Site Development

## Tree Preservation & Cohesive Landscape Implementation

From conception to construction, we are a one-stop-shop for sustainable planning and site development. Our extensive experience with both land clearing and tree preservation ensures your site development needs are met while valuable trees and habitat are strategically preserved.

The seamless transition from your site to the surrounding infrastructure, natural features, and local landscape can expedite the integration of your new development with the existing community.
